

FERNEY QUINTERO

AI Automation Engineer | Multi-Agent Systems | Workflow Orchestration

Bogotá, Colombia • ferquintero2013@gmail.com • linkedin.com/in/ferneyquintero-7301b547

PROFESSIONAL SUMMARY

AI Automation Engineer with 10+ years of software engineering and project leadership experience, now focused on designing and shipping production AI automations and multi-agent systems. I build with n8n, Zapier, Claude, and modern LLM orchestration tooling — turning manual workflows into reliable, scalable systems. My software engineering background (Java, Scala, ERP development) and PM/Scrum experience let me move from raw business problem to deployed automation without translation loss. Winner of EmprendIA LATAM Hackathon (Best AI Automation, n8n).

CORE SKILLS

Automation & AI Orchestration: n8n, Zapier, Make, multi-agent systems, agentic workflows

LLMs & AI Tooling: Anthropic Claude, Claude Code, Claude Skills, Vibe Coding, prompt engineering, RAG

Integrations & APIs: Meta APIs, ManyChat, GoHighLevel, Shopify, TikTok Shop, Amazon, Odoo ERP

Engineering: Python, JavaScript, Java, Scala, REST APIs, webhooks, system integration

Delivery: PMI / Scrum / Agile coaching, requirements engineering, technical documentation

EXPERIENCE

Software Development Lead — AI & Process Automation

March 2026 – Present

Fajas Forma Tu Cuerpo Shapewear (Xpress Shapewear FL LLC)

- Apply AI tooling (Claude, custom skills, meeting analysis agents) to accelerate decision-making, requirements extraction, risk identification, and documentation at ~3x baseline speed.
- Design and ship process automations replacing manual workflows across Operations, Accounting, and E-commerce — reducing operational risk and rework.
- Orchestrate multi-platform synchronization (TikTok Shop, Amazon, Shopify) with inventory and billing systems built on Odoo ERP across US, Colombia, and Mexico.
- Define product governance frameworks that eliminate data inconsistencies across e-commerce channels.
- Translate business needs into actionable technical specs and lead development teams to delivery.

AI Automation Engineer / Consultant

July 2025 – March 2026

Independent

- Lambda AI (Aug – Dec 2025): Designed and deployed AI sales support agents using Meta APIs and ManyChat, integrating multiple data repositories to automate lead capture, qualification, and pipeline management.
- Onest Vision (Jan – Mar): Built and maintained CRM automations in GoHighLevel — UTM-based attribution, contact and opportunity routing, and reporting pipelines.
- Won 1st Place — Best AI Automation at EmprendIA LATAM Hackathon (n8n track).

Agile Leader

March 2024 – July 2025

Nequi

- Led productivity improvements across the software product development value chain through agile tactics, team coaching, and process redesign.
- Implemented innovative practices that improved delivery efficiency and cross-team collaboration.

Scrum Master

May 2022 – July 2023

Imagemaker

- Led multicultural delivery teams; partnered with sales managers on proposals, estimates, and scopes of work.
- Facilitated discovery sessions to define customer needs, evaluate feasibility, and set priorities.
- Owned project lifecycle from inception to implementation; provided agile coaching.

Agile Consultant

January 2021 – May 2022

Sophos Solutions S.A.S.

- Implemented agile methodology, improving project efficiency and adaptability.
- Coached teams toward more responsive, collaborative work; removed delivery blockers.

Project Manager

August 2018 – December 2020

Softgic

- Managed project delivery under PMI framework; contract analysis and deliverables tracking.

Senior Software QA Analyst — Team Lead / Software Developer

2015 – August 2018

BVC — Bolsa de Valores de Colombia

- Led QA for one of the largest projects in the company's recent history.
- Earlier: developed in Scala and Java on a Scrum team.

Development & Consulting Engineer

February 2013 – March 2015

DIIT Consultores SAS

- Microsoft Dynamics AX ERP development and consulting; business analysis; functional and technical documentation.

EDUCATION

Specialist in Project Management of Systems — Universidad del Rosario (2015 – 2016)

Systems Engineer — Universidad Católica de Colombia (2007 – 2012)

CERTIFICATIONS & AWARDS

- 1st Place — Best AI Automation, EmprendIA LATAM Hackathon (n8n)
- Claude Code: Software Engineering with Generative AI Agents
- Zapier Expert
- Becoming an Agile Coach
- Frontend Developer — Practical Course
